María Belén Corvalán Amil

Senior Software Engineer | AI-Focused · AI Agents · MCP Servers

Buenos Aires, Argentina | bcorvalan.amil@gmail.com | bcorvalanamil.com | linkedin.com/in/mbcorvalan

PROFESSIONAL SUMMARY

Senior Software Engineer with 8+ years of experience turning client needs into effective, scalable, accessible, and high-performance solutions. Focused on optimizing delivery and reducing costs through AI across the software development lifecycle. Hands-on AI engineer working with Python, LLMs, RAG, evals, and agentic systems.

CORE SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Sass, Storybook.js, Design Systems, Component Libraries, Design Tokens, Responsive Design.
Backend & Data	Node.js / Nest.js, REST APIs, GraphQL, SQL & NoSQL Databases, Python.
Quality	Unit Testing, Integration Testing, End-to-End (E2E) Testing, WCAG.
Delivery	GitHub Actions, GitLab CI/CD, Jenkins, Azure Pipelines.
AI	Generative AI, LLM Integration, Prompt Engineering, AI-Assisted Software Development, RAG, evals, and agentic systems.

PROFESSIONAL EXPERIENCE

Senior Software Engineer — Hexaware | Aug 2024 – Present · Remote

• Develop and evolve EY Motif, a reusable, accessible component library built with React and Angular in TypeScript to WCAG standards.

• Support developers across consuming teams in integrating the library with their backend services and APIs.

• Collaborate with the DevOps team on containerization and deployment using Docker and Kubernetes.

Senior Software Engineer — Freelance Development | Feb 2026 – Aug 2026 · Remote

• Designed and developed a full-stack application for a crane company's AI-powered HR automation platform using Next.js, React, TypeScript, Node.js, and Supabase.

• Built AI-driven conversational workflows to automate candidate screening via WhatsApp, enhancing user engagement.

• Developed an HR dashboard for candidate management, recruitment pipelines, and reporting, streamlining HR processes.

Senior Software Engineer — Hero Digital | Sep 2021 – Aug 2024 · Remote

• Delivered end-to-end ecommerce platforms, from frontend and backend development to launch.

• Built high-traffic websites for enterprise clients.

• Developed live-data websites that display information in real time.

Software Engineer — TradeHelm, Inc. | Mar 2020 – Aug 2021 · Remote

• Built responsive intranet applications with React, Next.js, and TypeScript from Figma designs, using reusable components, Sass, REST APIs, and backend services.

• Developed frontend and backend features for a digital bank's online intranet, specializing in access management — roles, permissions, and secure authentication flows.

Frontend Engineer — Cencosud S.A. | Mar 2018 – Mar 2020 · On-site

• Modernized Easy Argentina's e-commerce platform with React and TypeScript, improving navigation, product discovery, filters, product pages, and responsive behavior.

• Acted as a bridge between business, product, UX/UI, backend, and QA teams, translating each area's needs into technical solutions.

Software Quality Assurance Analyst — MRM | Feb 2016 – Mar 2018 · On-site

• Executed manual and automated testing, regression, smoke, and functional.

EDUCATION

Graphic Design — Universidad de Palermo | 2013 – 2018 · Buenos Aires, Argentina
