

María Belén Corvalán Amil

Senior Software Engineer · Building high-performance products with AI

Buenos Aires, Argentina bcorvalan.amil@gmail.com bcorvalanamil.com linkedin.com/in/mbcorvalan

PROFESSIONAL SUMMARY

Senior Software Engineer with 7+ years building scalable, accessible, high-performance web products with React, TypeScript, and Node.js. Experienced in design systems and component libraries at enterprise scale, backend and API integration (REST, GraphQL), and applying generative AI to accelerate delivery.

CORE SKILLS

Frontend	React.js, Next.js, Svelte, TypeScript, JavaScript (ES6+), HTML5, CSS3, Sass, Storybook.js, Design Systems, Component Libraries, Design Tokens, Responsive Design
Backend & Data	Node.js / Nest.js, REST APIs, GraphQL, SQL & NoSQL Databases, Python (Scripting & Automation)
Quality	Unit Testing, Test Automation, Integration Testing, End-to-End (E2E) Testing, WCAG
Delivery	Git, CI/CD, Azure
AI	Generative AI, LLM Integration, Prompt Engineering, AI-Assisted Software Development, Claude, GitHub Copilot

PROFESSIONAL EXPERIENCE

Senior Software Engineer — Hexaware Aug 2024 – Present · Remote

- Build and evolve EY Motif, a reusable, accessible component library built with React and TypeScript to WCAG standards, and support consuming teams with backend integration.
- Own component delivery end to end, from API definition and implementation through testing, documentation, review, release, and maintenance.
- Lead migration audits and drive AI-assisted workflows, including AI agent tooling and MCP server integration.
- Analyze library usage data with Python to turn user blockers into product and documentation improvements.

Senior Frontend Engineer — Hero Digital Sep 2021 – Aug 2024 · Remote

- Delivered high-traffic experiences for Zoom, Google Blog, Jefferson Health, and K. Hovnanian Homes using React/TypeScript.
- Built e-commerce features integrated with REST APIs, analytics, backend data, and third-party services.

Software Engineer — TradeHelm, Inc. Mar 2020 – Aug 2021 · Remote

- Built responsive intranet React applications from Figma designs using reusable components, Sass, REST APIs, and backend services.
- Contributed to the GraphQL backend (graphql-yoga): designed the schema — types, queries, and mutations — and implemented resolvers, several querying the database directly.
- Worked across domain business logic in Go services and lighter Node microservices, covering API contracts, data transformations, validation, testing, browser compatibility, and code reviews.

Frontend Engineer — Cencosud S.A. Mar 2018 – Mar 2020 · On-site

- Modernized Easy Argentina's e-commerce platform with React, improving navigation, product discovery, filters, product pages, and responsive behavior.
- Integrated catalog, pricing, and inventory services with product, UX/UI, backend, business, and QA teams.

Software Quality Assurance Analyst — MRM Feb 2016 – Mar 2018 · On-site

- Executed manual and automated testing — regression, smoke, and functional — across business flows, responsive layouts, browsers, and integrations.

EDUCATION

Graphic Design — Universidad de Palermo 2013 – 2018 · Buenos Aires, Argentina
